

HealthCap[®] Equip

For the Senior Care Industry

HEALTHCAP EQUIP BENEFITS

- Increase integrity of MDS data
- Increase accuracy for reimbursement
- Predict patient risk
- Easy setup and implementation
- No new data entry required
- Access to EQUIP newsletters and interactive webinars
- Improve risk management consulting efficiency

Accessing HealthCap Equip

HealthCap Equip is a service available for an additional cost to all HealthCap risk management customers. Since HealthCap Equip is a continuous quality improvement service, HealthCap Equip provides both financial and risk management benefits.

- You can use HealthCap Equip to receive an MDS Audit Report as often as you want.
- Gain access to training webinars, newsletters, and other resources in the Equip database.

HealthCap Equip

HealthCap Equip is an online service that verifies the accuracy and integrity of your MDS reports. No new data entry is required, simply upload existing MDS reports on the Internet.

The MDS Audit Report detects duplicate and erroneous MDS data to increase integrity and accuracy. Increasing the quality of data improves reimbursement and care.

HealthCap provides a family of liability insurance products for the long term care industry. Since 2001, HealthCap has grown to become a top-5 liability insurance provider for the industry, with over 1,700 insured facilities and offering a broad array of liability insurance products.

HealthCap has a range of liability insurance products to meet the needs of any senior living care provider:

- Occurrence or claims-made
- First dollar or retention
- Primary or excess umbrella
- Captives
